- and much more

www.magix.com

Every audio tool in a single box

No matter whether record, cassette, or other another audio medium – MAGIX Audio Cleaning Lab 15 deluxe digitizes your favorite music, optimizes it, burns it to CD, saves it to PC, or transfers it to MP3 players.

Record & digitize

MAGIX Audio Cleaning Lab 15 deluxe makes producing perfect audio recordings easy! Simply click "Record" and the integrated recorder records everything that you can hear via the sound card. Of course, non copy-protected audio CDs and MP3 files can be imported without any problems. Complicated recording settings are finally a thing of the past.

Individual pieces of music are automatically detected and separated from each other or saved already during the recording process. Even the volume can be adjusted automatically to the optimum level.

An if you want to record a special radio program, then just use the practical timer: Enter the date and time, and your PC will start the recording automatically.

Cut & edit

Cut, edit, add effects, etc. – everything is so easy that no time is required to learn. Even high-end audio editing is possible!

Even more specialized tasks can be carried out by this specialized software with ease: Edit the information for individual MP3s and complete it automatically. The volume of background music can be reduced for spoken recordings – ideal for podcasts.

Discover audio editing at the highest level – and with the easiest handling.

Optimize & restore

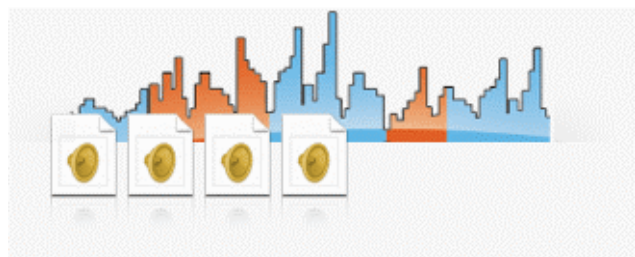

Experience a completely new kind of sound – at a single click if you want: Clipping, crackling vinyl, audio disturbances, noise, popping, and humming can be filtered out of every recording.

You can also remedy volume fluctuations, recover lost overtones, correct the tempo, and optimize the frequency settings. Fine tuning is also possible with the equalizer.

There are also numerous effects for producing a perfect, neutral stereo image: crystal clear, warm, and flawless! MAGIX Audio Cleaning Lab 15 deluxe helps you achieve the best results possible!

NEW! Optimize all of your MP3s at once

Do you have a digital music collection on your PC? Experience your songs in a new quality! MAGIX Audio Cleaning Lab 15 deluxe finally makes poor sound resulting from MP3 compression a thing of the past! MAGIX Audio Cleaning Lab 15 deluxe lets you automatically polish up your digital music archive. Of course, you can use any conventional file formats.

Freshen up video sound

If you own a camcorder, then you're familiar with this problem: Your most beautiful homemade video recordings seem disappointing due to second-class audio. MAGIX Audio Cleaning Lab 15 deluxe optimizes the sound of your video recordings and removes the typical basic noise that nearly every camcorder produces.

Experience your videos again with the high-quality sound that they've earned!

Burn & export

To enjoy your complete music collection consisting of LPs, cassettes and other sound carriers digitally via your CD player, burn your recordings simply with one click of a button to CD & DVD.

If you like it compact, MAGIX Audio Cleaning Lab 15 deluxe offers you an especially practical solution: Up to 100 hours of music can be burned to DVD in MP3 format!

With the help of the export function, you can experience your music collection on the go – on your cell phone or MP3 player!

Easy to use

MAGIX Audio Cleaning Lab 15 deluxe is so easy to use that perfect results almost produce themselves. All of the audio tools work just the way you want them to: fully automatic, step-by-step, or completely individually. Practical info videos and audio examples instruct you in case you want to make more detailed specifications. The program will never leave you without help, no matter what you have planned for your audio material.

NEW! The most modern effects technology

MAGIX Audio Cleaning Lab 15 deluxe has also been improved in many ways: The DeNoiser has been developed even further, and the timestretching function has also been optimized. The result is noise suppression and tempo correction features that work even easier and produce better quality results!

The am-track SE vintage compressor produces and especially warm audio image, and the spectral display has been revised to make discovering sudden audio fluctuations even easier.

Additional advantages:

- Vinyl support: Suitable for 33, 45 and 78 RPM LPs
- Step-by-step mode: explains as it leads you through the program
- Automatic cleaning assistant
- Info box: useful immediate help
- Task Assistant: with videos and new functions
- Top-quality tools for audio material optimization
- MAGIX Xtreme Print Center: create and print out CD covers (incl. countless templates)

Tools

All important tools are removed with just a single click.

¹Computer Music (UK), 1.1.08
Rating 8/10; *Overall, Audio Cleaning Lab 12 XXL represents pretty good value for money and offers a user-friendly solution to cleaning up your old cassettes and vinyl.*

²ITreviews.co.uk (UK), 3.1.08
Audio Cleaning Lab remains a quality solution for those who wish to rescue their old tunes from vinyl and tape. The sleeker interface is welcome, and there's a decent wedge of new features here, along with a very reasonable price tag.

³pcw.co.uk (UK), 3.1.08
Overall rating: 4/5; *Features: 4/5*; *Ease of Use: 3/5*; *Value for Money: 3/5*; *Overall: ... great for restoring old recordings whatever the source*; *Breathe new life into your old recordings.*
