

Advantages

Only **MAGIX PhotoStory on CD & DVD 9 deluxe** offers over 40 great extras in the following fields:

CREATIVE DESIGN

- **NEW!** Animated travel route animation
- **NEW!** Create **screenshots** and add them to your slideshow project. Practical for quickly adding illustrations from the Internet.
- **NEW!** **Media search function** in the Media Pool with access to the Windows search index
- Freely definable motion paths for **dynamic camera pans and zooms**
- Personalized **3D design & animations** (dynamic rotation, distortion, etc.)
- **Artistic & image distortion filters**
- Effects can be controlled **in the timeline**
- Playback **videos in slow/fast motion & in reverse**
- **Video stabilization** for rescuing and restoring shaky recordings
- **Exchange mode** for media in slideshows: Intuitive arrangement and use of older projects for reuse (for holidays, parties, commission work, etc.)
- Have decorative elements follow content in videos ("**magnetic objects**")
- Create your own **photo stories** with single frame recordings via video camera (web cam, for example)

TEMPLATES

- **NEW!** **Slideshow styles** (+10), **decorative elements** (+40)
- **NEW!** **3D titles** (+50), **transition effects** (+10), **video effects** (+5)
- **NEW!** **Picture-in-picture animations** (+10), **NEW!** **DVD menus** (+ 30)

AUDIO DUBBING

- **NEW!** **100 pieces of background music** (audio dubbing archive with over 500 additional pieces of background music, sounds, and sound effects)
- **Image changes** synchronized with the background music
- Editable **volume curves**
- **Music volume is reduced** during speech recordings

ADVANCED CD/DVD AUTHORIZING

- **NEW!** Flexible **buttons**, submenus and **hierarchies**, optical **layout grid**, **design options** in image editing programs (in the included MAGIX Xtreme Photo Designer 6, for example)
- Creates **TV showtime discs** for optimized playback of digital photos on DVD players
- Creates **multi-discs** (video DVD, WMV HD disc, and project backup on one disc)
- **Archiving** for original recordings, slideshows, and projects on any supported disc format
- **OnDisc editing** for retroactive completion of slideshows on previously burned discs (RW)
- Exports as an **ISO image** for repeated burning, burning with other software, and playback on your PC

HD QUALITY

- **NEW!** Supports **raw formats** (RAW) of more than 280 camera models
- **NEW!** File export in **HD formats** (ideal for presentations using a projector)
- Creates high-resolution **Blu-ray Discs™** with animated DVD menus, (including templates)
- Creates high-resolution **WMV HD discs**, including interactive DVD menus
- **HD slideshow player:** Play high-resolution PC shows immediately without having to export them beforehand
- 1-click export of the entire DVD project as an interactive, **high-resolution PC show**
- Practical **single image export**, including all applied effects and decorative elements

INTERNET

- Load complementing images, music, and text directly from **Internet sites**
- Export image sequences as **animated graphics** (.GIF)
- Export as **Flash® video players** for websites (MPEG-4 plug-in / optional)
- File size optimized for sending **slideshows as email**

MOBILE DEVICES

- Export to **mobile players** (mobile phones, media players, etc. / MPEG-4 plug-in optional)
- Transfer photos and slideshows with accompanying audio to **digital picture frames** (MJPEG format, for example)

BONUS TOOLS

- **NEW! MAGIX Music Editor 3** (sound editing)
- **MAGIX Xtreme Photo Designer 6** (image editing)
